

Wed. afternoon

Dear Jimmy,

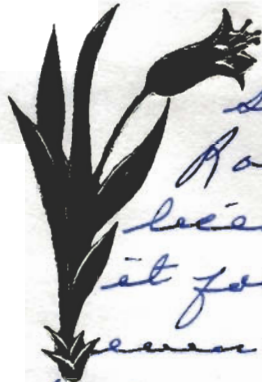

I went to the bank today and got the money. What you can do is pay us the $4\frac{1}{2}$ per cent interest which is what we get from the bank. The bank charges 8% interest so it is much better for you to get it from us. We get $5\frac{1}{2}$ percent on our savings at the First Mutual so I took this thousand out of the savings at the Pacific National. The seven hundred I took out in Aug. and Sept. Can just start from there. You can sign a note which I will send so you can feel like it is just as business like as borrowing from anyone else. I'm sure you will need more before you start working so when you do I will send it to you. Another

thing you won't have
to feel you have to
hurry and pay it back
so don't worry about any-
thing.

For Dell's information about
Student loans I will find out
tomorrow. Our bank in Bellevue
said the branch in the University
District had that information so
I will call them tomorrow
morning and ask about it.

Dad just called and said he
had two tickets for the game
Saturday. I am going to ask Mary
and Mike if they want them.
I can't go because of the dinner
party I am having Sat. Night and
I don't want to go anywhere and
I have a lot of jobs for Dad to do
like peeling our new load of
wood. We got our new gutters
put on yesterday. The original

ones had really over-
served their time.

Roberta got her drivers
license after being without
it for one year and she didn't
even have to take the test.

That really makes me mad be-
cause the new law requires a
person to take the test if they
come in just one day late after
their birthday. Roberta drove
from the drivers license place
down to the liquor store and
has been indisposed ever since.
She will lose her license again
very soon & am sure.

Dad just came in so I have
to hurry. Tonight is our bridge
night so I like to eat early.

More later.

Love,

I am going to the game
Sat.

Mom
